

A CONCEPT, BUILT UNPROMPTED

SETIBA

MEDICAL SPA · WESTLAKE VILLAGE

Nobody hired me. I live ten minutes away in Thousand Oaks, I saw your business, and I built you a real website to see what it could look like.

THE IDEA IS YOUR OWN NAME. SETIBA IS YOUR TWO DAUGHTERS’ NAMES PUT TOGETHER, SO THE SITE IS BUILT OUT OF THOSE SIX LETTERS, IN THE BLUES FROM YOUR LOGO, ON THE SAND COLOR OF YOUR OWN WALL.

THREE THINGS A WORKING SITE WOULD DO FOR YOU

01

ANSWER THE PRICE QUESTION BEFORE IT COSTS YOU A CALL

Right now your homepage lists memberships at \$149, \$249 and \$399, and your memberships page lists \$249, \$399 and \$599. Someone comparing the two gets two answers. One clear set of prices, in one place, is the whole fix.

02

LOOK AS CREDIBLE ONLINE AS YOU ALREADY ARE IN THE ROOM

Your reviews say welcomed, unhurried, never pushed. Your site opens with a page title that still reads *"Setiba Medical Spa V2"*, and every link you share shows an arrow icon instead of your work. The room is better than the website.

03

PUT ALL FORTY-THREE TREATMENTS WHERE PEOPLE CAN FIND THEM

Injectables through to hormone therapy, in six clear categories, each with what it is for. Plus the thing your site never says out loud: that everything happens under a named Medical Director.

WHAT IT COSTS

FOUR WAYS TO GO, AND WHY THE FIRST ONE IS CHEAP

TAKE IT AS IT IS

~~\$2,450~~ \$700

- Your content and photos swapped in
- Minor changes to fit how you actually work
- SEO set up properly
- Live on your own domain
- Handed over to you. You own all of it

It is cheaper because it is already built. I am not starting from a blank page, so I am not going to price it as though I were.

TAKE IT FURTHER

FROM
\$1,500

- More pages
- Deeper customization
- Built out around how you actually run things

LET ME LOOK AFTER IT

\$99 a month

or \$69 a month paid annually. On top of the build.

INCLUDED, WITHIN REASON

- Hosting and all the technical upkeep
- Keeping the SEO healthy
- Text and copy edits, swapping photos
- Updating hours, prices, treatments
- Seasonal changes

NOT INCLUDED, QUOTED SEPARATELY

- Additional pages or new sections
- Branding or logo work, photography
- New long-form content
- New features or integrations
- Anything that is a new project, not an update

Anything past small updates and maintenance gets quoted before any work starts, so you always know the cost up front and never get a surprise invoice. That boundary is exactly what keeps the monthly this low.

MARKETING SUPPORT

SCOPE TO
DISCUSS

My day job is Chief Marketing Officer in tech. Thirteen years at CMO level building brands, with work that has generated billions of earned impressions, communities in the millions, and revenue you can measure. If you ever want that pointed at Setiba, it is available.

NOBODY HIRED ME FOR THIS. I DID IT BECAUSE I LIKE THE WORK, AND I WOULD RATHER START A RELATIONSHIP THAN WIN A BIDDING WAR. THAT IS THE WHOLE REASON THE FIRST NUMBER IS WHAT IT IS.
